## Challenges and way forward

As a monthly meeting during the transition period we had challenges on leadership which we addressed during our visitation to the local churches and mission stations. The other challenges concerning management of projects in our local churches, we are still addressing them at monthly meeting level. We also had a challenge in completion of our cabro road project which is yet to be completed due to occupation of part of the space by some kiosk owners. We are pursuing a solution for this through the county government of Mombasa. We have also had challenges in meeting our financial obligations which include our remittances of our budgetary allocations to NYM. To address this we are coming up with strategies of meeting the same. As a monthly meeting we are also supporting seminars at local church and monthly meeting level to address social issues and emerging issues in leadership. As a monthly meeting leadership with the pastoral team, we believe and trust that through the grace of God we shall be able to address the challenges facing our meeting. We trust God that through formation of cell groups, most of the issues will be easily addressed.

## Conclusion

As a monthly meeting we look forward to achieving more after addressing the above stated challenges. We trust that through the grace of God Mombasa will remain a beacon of worship and center of hope.

God bless you as you diligently serve Him
